Working for us

We are one of the world's busiest ambulance services – so working here will be an experience like no other.

We have over 5,000 staff working for the Service; around 3,300 frontline crews in ambulance stations across London, 500 people in our two 999 control rooms and hundreds of support staff based in our offices across the city.

Our medics see all walks of London life - from Mayfair hotels to run-down tower blocks. With us, you will receive diagnostic training, like how to interpret ECG readings, and you will have the autonomy to make clinical decisions on the ground.

As well as roles directly related to caring for patients, we employ people in a range of corporate departments.

Together, we all play a key part in making sure that we can respond to anyone needing our help 24 hours a day, 365 days a year.

Keep up with the latest news about London Ambulance Service including our vacancies, the types of incidents we attend and meeting our staff on [Facebook](#), [Twitter](#), [Instagram](#) and [YouTube](#).
