Talking with us

Remember, if someone is seriously ill or injured, and their life is at risk, you should call 999 immediately.

This section explains how you can contact us when it is not a medical emergency.

If you are a health professional please see the [health professionals](#) section for details on how to contact us.

What would you like to do?

- [For general enquiries, to feed back or make a complaint about the service you have received or to find out how to obtain copies of your medical records.](#)

Our patient experiences team is your first point of contact if you have any comments, feedback or complaints about the service you have received from us. The team can also deal with all general enquiries about our policies and procedures and how we work.

In order to maintain a high level of patient care service to the communities of London, the

EasyRead documents and prompt cards

We have EasyRead prompt cards to show you how you can get help if you are unwell or hurt.

[▶ EasyRead documents](#)

Friends and Family Test

The Friends and Family Test is a simple question, asking you how likely you would be to recommend our service to your friends and members of your family. It is one way for us to find out what you think of our service, and to give you the opportunity to give us feedback about the care you have received, so that we can make improvements in the future.

[▶ Friends and family test](#)

Service has produced a specific plan to deal with anticipated capacity issues which triggers specific measures when we are operating over capacity.

Within the Capacity Plan is a Resourcing Escalation Action Plan (REAP) which is used to identify the level of pressure the Service is under at any given time, and provides a range of tactical options to deal with the over capacity situation.

This revised plan is now a national framework in use by ambulance services across the country.

As a result of the continuing high level of demand that we are experiencing, please be aware that there may be a delay in responding to complaints and enquiries. There are a number of reasons for this, including the implementation of a raised REAP level, ambulance crews not being very easily available to discuss particular incidents they have attended, and clinical managers having less time to look at the details of the care that has been given in different cases.

We will respond to all enquiries as quickly as possible, but would apologise should this take longer than usual. Please do not email multiple trust departments as this only duplicates administrative effort.

If you are enquiring about an existing complaint, please contact the case officer on the telephone number detailed in the acknowledgment sent to you.

Arrange a visit to our organisation

If you are a healthcare professional, or work for a government agency or another ambulance service, either in the UK or abroad, and would like to visit our organisation, contact our conference, induction and awards department. Please note that we are often very busy and unable to accommodate ride-outs with members of our staff.

Please note that these cannot be arranged for members of the public.
