

## Hundreds treated at Diamond Jubilee celebrations

Our staff worked with volunteers from St John Ambulance and the British Red Cross to treat more than 1,000 patients over the Diamond Jubilee weekend.

Sunday – the day of the Thames river pageant – was the busiest day when 548 patients were treated, most of them suffering from the effects of the cold and wet weather.

## Life-saving training given to Mayor's ambassadors

Our staff are training 1,000 London Ambassadors how to save a life ahead of the Olympic and Paralympic Games.

The volunteers, who have been recruited by Mayor Boris Johnson to welcome and help visitors this summer, are being taught life-saving skills that can increase the chance of someone surviving if they collapse and their heart stops.

## Annual report and quality account published

Our annual report and quality account for 2011/12 have been published.

Our annual report reflects on our activities and financial performance last year. It includes interviews with our Chairman and Chief Executive, a report on our achievements against our strategic goals, and a summary of our financial accounts.

Our quality account is a report about the quality of services we deliver. It describes the progress we have made against key quality areas during last year, and outlines new priorities for the year ahead. The report also contains feedback from some of our stakeholders who represent patients and the public on healthcare issues.
