<p>Audit processes are in place to monitor safer recruitment & managing allegations</p>	<p>How do you know? – include evidence of improved outcomes</p>		
<p>Are any actions required to improve effectiveness?</p>	<p>How will you do this?</p>	<p>Who will lead?</p>	<p>Timescale?</p>
<p>None</p>			

The Trust complies fully with the duty to inform the Independent Safeguarding Authority (ISA) if our organisation dismisses or removes a member of staff/volunteer from working with children and/or vulnerable adults because they have harmed a child or vulnerable adult. We have had no cases of this nature in 2012-2013.

When appropriate the Exec Lead (or Named Professional) informs LADO or SAM if we have any concerns about our staff; during 2014 – 2015 there were 7 cases.

The Trust's Recruitment Policy includes reference to DBS checks for specific groups prior to appointment:

Title: Section 11 Self Assessment Tool	Version: 1.0
Date: Nov2015-16	Owner: Alan Taylor/Named Professional Safeguarding Children

Section 11 guidance notes

What is Section 11?

Safeguarding children is everyone's responsibility. S.11 of the Children Act places a statutory duty on key organisations to make arrangements to ensure that in discharging their functions they have regard to the need to safeguard and promote the welfare of children.

It is important to remember that s.11 does not give agencies any new functions, nor does it over-ride their existing functions. Instead it requires you to carry out your existing functions in a way that takes into account the need to safeguard and promote the welfare of children.

Who does s.11 apply to?

S.11 compliance is a mandatory requirement for key organisations involved with children and young people, including:

- Local Authorities
- The Police
- The Probation Service
- NHS Bodies (including designated special health authorities, primary care trusts, NHS trusts and NHS Foundation Trusts)
- Youth Offending Teams

Guidance notes to support the completion of the S11 self assessment tool

This assessment tool has been designed to provide agencies with the opportunity to highlight areas of strength and to identify areas for development in respect of their section 11 duties and responsibilities. This will assist the LSCB partnership in identifying where to target support in order to drive safeguarding standards upwards.

In completing the assessment tool

1. If an agency decides that a particular strand within the assessment tool is not applicable the agency must clearly set out why the standard is not relevant.
2. When referring to children, the standard includes all children and young people aged 0 to 18 years
3. Safeguarding and promoting the welfare of children is defined within WT 2010 (1.20) as:
 - Protecting children from maltreatment
 - Preventing impairment of children's health or development
 - Ensuring that children are growing up in circumstances consistent with the provision of safe and effective care
 - undertaking that role so as to enable those children to have optimum life chances and to enter adulthood successfully.

This tool covers the continuum of safeguarding need from early safeguarding provision to statutory child protection processes.

Evaluation of responses

All LSCBs are inspected using OFSTED grading standards. S 11 evaluation reports will measure compliance using the OFSTED standards.

You may wish to reference your own inspection standards as evidence within submissions.

Evidencing the standards

When providing evidence to support compliance with standards you must be assured that statements made within the completed tool are correct and based on accessible evidence.

This self-assessment tool does not require agencies to submit documentation as evidence; however evidence may be subsequently requested.

The self-assessment must demonstrate the impact of policies and practice on identifiable improved outcomes for children young people and families for which evidence is available.

Demonstrating Outcomes

To demonstrate improved outcomes you may, for example, discuss how you identified areas for improved outcomes, what you hoped to achieve, what you did and then set out who was better off.

STANDARD 1 – senior management commitment to the importance of safeguarding and promoting children’s welfare

Job descriptions clearly set out the expectations placed on the named person.

Corporate / business plans highlight the improved outcomes expected as a result of the plan so that measured improvements in safeguarding, including child protection, are easily identifiable.

Ofsted and CQC guidance to be used where applicable throughout- www.ofsted.gov.uk; www.cqc.org.uk. Where voluntary services are contributing to the process safe network standards are to be used www.safernetwork.org.uk

To include reference to Health and Wellbeing Boards and Children’s Partnerships where applicable.

STANDARD 2 – A clear statement of the agency’s responsibility towards children is available to all staff

How do you know that your staff are aware of their safeguarding responsibilities eg how many staff are trained and level of training, induction training, professional development that highlights safeguarding knowledge, appraisals etc.

Provide evidence of complaints made regarding safeguarding issues including compliance with procedures. Include how the agency used complaints to improve service outcomes through organisational learning. You may include learning from serious case reviews, single and multi agency audits etc

Evidence how your agency ensures that any contracted/commissioned agency has the required level of safeguarding knowledge, including those who provide locum services. Evidence how you monitor contractual safeguarding compliance matched to outcomes including, for the voluntary sector, safe network standards.

STANDARD 3 – A clear line of accountability within the organisation for work on safeguarding and promoting welfare

Even if safeguarding is not your core business, agencies must evidence the accountability structure in place to ensure that children and young people are safeguarded and their welfare promoted, for example, through Think family/ hidden harm / safe networks / CQC standards/ Ofsted etc

STANDARD 4 – Service development takes into account the need to safeguard and promote welfare and is informed, where appropriate, by the views of children & families

Some suggestions for evidence within this section may include:

Equality impact assessments that include a specific area on safeguarding

How you have utilised young people forums to inform strategic planning or decision making

The methods that have been used to ensure the diverse needs of children are identified and addressed.

Identify the outcomes your agency prioritised and evidence how these have been progressed towards achievement.

STANDARD 5 – Training on safeguarding & promoting the welfare of children for all staff working with or, depending on the agency’s primary functions, in contact with children & families

Agencies must consider single and multi agency training undertaken: You may have discussed training elsewhere, this can be cross referenced.

A database for recording attendance at training can be in a number of formats including excel spreadsheet / word / electronic

STANDARD 6 – Safer recruitment procedures including vetting procedures and those for managing allegations are in place

How do you promote the role of the LADO within your agency (intranet / internet / websites / Team Meetings etc)? What evidence do you have to demonstrate that processes are embedded within your organisation and referrals made whenever an allegation is made.

Evidence could include referrals made to the Independent Safeguarding Authority (ISA), that they have been fully completed, not stopped due to staff resignation / checks made including CRB and professional registration.

STANDARD 7 - Effective inter-agency working to safeguard & promote the welfare of children

How do you utilise data and provide examples. For example provide an example of how you have acted on your data to improve early intervention provision.

Where applicable evidence how your organisation has used interagency protocols.

Show how you have worked effectively with LSCB partners to successfully deliver Care plans and appropriately support any s47 investigation.

Evidence to include how you monitor agency attendance at child protection conferences and core groups and ensure effective contribution to child in need and looked after children planning

Further examples could include attendance at multi agency meetings/ evidence of how non attendance at key meeting is addressed within your agency/ Agency progression of child in need plans / team around the child plans etc / dispute escalation procedures in place for resolving disagreement internally and externally on case issues

STANDARD 8 – Effective information sharing

Evidence practice links to the statutory guidance ‘Information Sharing for Managers & Practitioners (DCSF) and the 8 golden rules. If information sharing arrangements

are effective it will include secure transfer of information such as secure email, password protection etc.

Effective and appropriate information sharing could be identified through increased cases of early identification of need.
