

Ref: 0687

Request:

Received: 26/04/2010

Dear Sir,

I want to obtain figures regarding the amount of calls the ambulance service receives from Clapham High Street during the night time. I am mainly concentrating on Friday and Saturday nights but it would be useful to have every day. Basically the information I require include:

- Amount of call outs to Clapham High Street after 8PM in the last six months
- The reason for the call outs
- Is there a particularly hotspot area or club within Clapham High Street

Regards,

Response:

Responded: 30/04/2010

Dear

Thank you for your request for information, placed under the Freedom of Information Act (2000) (FOIA).

Please see attachment. This sets out 999 calls from Clapham High St addresses, SW4 6 and SW4 7, in relation to alcohol and assault-related incidents.

Please note that this should not be considered exclusively reliable as:

- The 'chief complaint' is recorded at the time of receiving a 999 call and may thus not accurately reflect the appropriate categorisation
- Illness and incident codes are recorded on the Patient Report Form, the record of the assessment and treatment completed by the attending ambulance staff. There may be more than one depending on the resources attending, including Fast Response Units. Consequently conflicting codes may be recorded depending on the subjective interpretation of the staff involved.

Yours sincerely,

Gary Bassett
